

WELCOME TO THE VIJILAN SUCCESS KIT

REAL-WORLD RESULTS FOR OUR PARTNERS AND CLIENTS

Thank you for downloading the Vijilan Success Kit. The documents inside showcase how organizations like yours partner with Vijilan to overcome today's most complex cybersecurity challenges. You will see real-world examples of how our unique approach—combining a partner-centric growth model [cite: 427] with elite technology alliances [cite: 443]—delivers measurable results. We empower our partners and clients by transforming raw data into actionable intelligence [cite: 428] and shifting security from a reactive chore to a proactive, business-enabling function[cite: 440].

HOW TO USE THIS KIT

Inside this kit, you will find eight "Customer Success Snapshots." Whether you are an MSP seeking to grow your security practice, a VAR looking for profitable solutions, or an enterprise CISO needing to enhance your security posture, you will find a relevant success story that speaks to your specific goals.

Incident Response
Overcome Ransomware with Zero Data Loss

THE VIJILAN DIFFERENCE

Active Remediation

Our 24/7 US-based SOC doesn't just send alerts; we actively contain and remediate threats to minimize business impact.

Data Optimization Expertise

We leverage our deep partnership with Cribl to solve the "data chaos" problem, reducing costs and improving security insights for our clients.

Partner-First Model

Our program is built from the ground up to make our partners successful, with a "no minimums" policy, a 30-day opt-out trial, and a full enablement toolkit.
