

WHY CHOOSE VIJILAN?

24/7 MANAGED SOC THAT BECOMES AN EXTENSION OF YOUR TEAM

Cyberattacks don't work 9-5. Your security shouldn't either.

Building an in-house SOC costs \$1.5M-\$2.5M annually, requires 8-12 analysts, and takes up to 18 months to operationalize. Meanwhile, cybersecurity talent shortages and burnout continue to rise.

Vijilan delivers enterprise-grade 24/7/365 protection—without the cost and complexity of building it yourself.

WHAT MAKES VIJILAN DIFFERENT?

✓ 24/7/365 Real-Time Monitoring

Around-the-clock threat detection, triage, and response with no gaps in coverage.

✓ Certified, Experienced Analysts

GCIA, GCIH, OSCP-certified experts with 7+ years of SOC experience review and investigate every critical alert.

✓ Human-Led Alert Triage

Every critical alert is analyzed by a real security expert—not just automation.

✓ Rapid Incident Response

- Host isolation
- Process termination
- Account lockout coordination
- Escalation within defined SLAs

✓ Proactive Threat Hunting

We don't wait for alerts. We actively search for hidden threats inside your environment.

✓ Executive-Level Reporting

Weekly summaries, monthly business reviews, and compliance-ready documentation.

ENTERPRISE-GRADE TECHNOLOGY STACK

Our SOC is powered by industry-leading platforms:

- CrowdStrike Falcon (Next-Gen SIEM, EDR/XDR, Identity, Exposure)
- Cribl (Log routing & enrichment with cost optimization)
- Corelight (Advanced network detection & visibility)

Seamless integration with your existing security ecosystem ensures rapid deployment and fast threat identification.

BUILT FOR COMPLIANCE

Our SOC supports and maintains alignment with:

- ISO 27001
- SOC 2 Type 2
- GDPR
- HIPAA

Helping you stay audit-ready while improving security maturity.

THE VIJILAN ADVANTAGE

- ✓ Fully Managed SOC — No hiring required
- ✓ 24/7 Monitoring & Response
- ✓ Certified Security Experts
- ✓ Advanced Threat Detection & Hunting
- ✓ Compliance-Ready Reporting
- ✓ Cost-Effective Alternative to In-House SOC
